

Technical Documentation Aduro Wood stove

Aduro AS, Beringvej 17, DK-8361 Hasselager, Denmark. www.aduro.dk, info@aduro.dk

The Wood burning stoves manufactured by Aduro AS complies with conditions of Ecodesign determined by the European Commission Regulation implementing directive no 2015/1185, dated April 24th 2015 of the European Parliament and of the Council 2009/125/WE with regard to Ecodesign for solid fuel local space heaters.

Declaration was issued based on test reports from the notify body no:

Teknologisk Institut, Kongsvang 29, DK-8000 Aarhus, notified body number: 1235

Issued test report under system 3 is marked on the DoP for each product.

Harmonized technical specification	EN 13240:2001/A2:2004/AC:2007
Model	Aduro 17 series
Test report	300-ELAB-2323-EN 300-ELAB-2323-NS
Indirect heat output	no
Direct heat output	7 kW
Energy efficiency index	104,1
Fuel: Wood logs, moisture <20%.	
Characteristics when operation the preferred fuel	
Emission regarding seasonal space heating for recommended fuel:	Nominal heat output
Heat output	7 kW
CO mg/Nm ³	< 1250
OGC mg/Nm ³	< 120
NOx mg/Nm ³	< 200
Solid particles mg/Nm ³	< 30
Energy efficiency wood logs	> 78%
Type of output/ room temperature control	
Electronic room temperature control	no

The wood stove must be installed in a suitable and physically possible position. You need to be sure that the position complies with local regulations and distance requirements mentioned in the manual.

Signed for and on behalf of the manufacturer by:
